**NEW**

### FIREFLY BIRD DETERENT.

#### EFFECTIVE DAY AND NIGHT!

- **Deters birds from perching nearby.**
- Spinning disc has 2 brilliantly reflective patches.
- Unsettle birds causing them to fly away
- At night the firefly constantly flashes reflective light.
- Disc rotates and when there is no light the luminous patches glow for up to 8 hours.
- Secure and easy attachment to wires or structures
- NEW lighter stronger clamp

Clamps securely to conductors from 6 –70 diameter, including ABC

Fitting to overhead wires with red application tool and hot stick.

The firefly is made from long lasting UV resistant materials with a stainless steel swivel. The strongly sprung 3 finger clamp has been proven in use world wide for 20 years and will attach to hi voltage power conductors, ABC, earth wires, stays and guys, angle steel, pipes etc. It also works attached at right angles to structures.

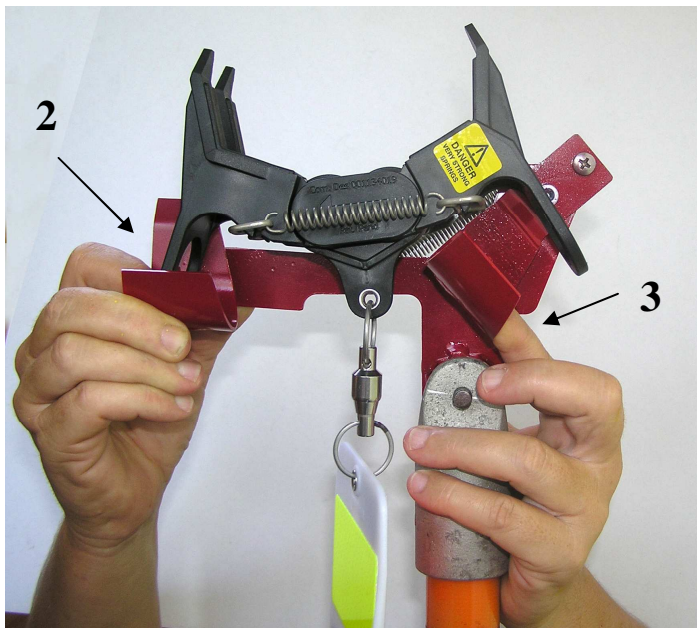

The firefly was developed and tested by a wildlife biologist to work in many locations including

Large buildings where pigeons roost, power wires, substations, railway stations, yachts and moored vessels, airports and anywhere birds are a nuisance. The firefly has been tested for corrosion resistance and long life.

# APPLICATION & REMOVAL OF FIREFLY WITH RED TOOL 1024

1 PULL THE ON THE RINGS UNTIL THE CLAMP STAYS OPEN

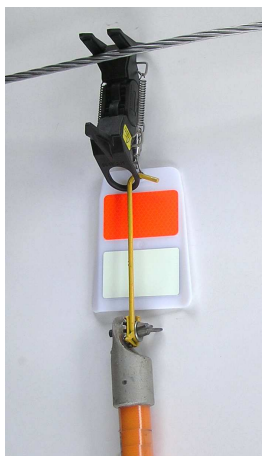

2 PUT THE CLAMP RING OVER THE PEG ON LEFT CUP OF THE TOOL.

3 SWING THE RIGHT CUP TO THE LEFT & POSITION THE CLAMP INTO THE TOOL. ALLOW THE SPRING TO PULL THE CUP BACK INTO PLACE.

4 POSITION THE CLAMP UP UNDERNEATH THE CONDUCTOR AND PUSH UP QUICKLY CAUSING IT TO SNAP SHUT

TO REMOVE  
PUT HOOK THRU ONE OF THE FINGER RINGS ON SNAP CLAMP AND PULL DOWN UNTIL IT OPENS THEN LIFT UP TO IT SLIDES ONTO THE HOOK TOOL OR FALLS TO THE GROUND
